

## Fund Finance Friday

### PEI Article on ATP Private Equity Partners

August 30, 2019 | Issue No. 43

*Private Equity International* earlier this week published an article titled “Danish Pension’s Investment Arm to Quiz GPs on Credit Lines – Exclusive.” The article reports that ATP Private Equity Partners is going to be asking the funds it invests in to provide IRR calculations with and without subscription line impact. There is also a stray reference to Abraaj and the delivery of investor notices. The subscription required article is available [here](#).
