On the Move

Cadwalader is thrilled to announce that Nathan Parker, a fund finance lawyer in our London office, has been promoted to Partner effective January 1, 2020. Nathan is an integral part of our fund finance team and works on a wide range of our most challenging transactions. He has represented leading banks and financial institutions, private equity sponsors, funds and their portfolio companies in connection with their financings, including subscription facilities and NAV-based transactions, management fee lines and GP financings, cross-border leveraged buyouts, restructurings, and holdco and other structured indebtedness. Nathan received his B.A. and LL.B. with honors from Monash University, Australia. Congratulations, Nathan!
