By Wesley Misson
Partner | Fund Finance

Cadwalader provided a chapter in the 2020 Pink Book on current market trends on overall limitations. The article is intended to be a complete resource for practitioners on all things overall limitations: formulations of the various types in partnership agreements, data-based market prevalence, mitigants employed by lenders to reduce risk, commercial compromises making headway in the market, and partnership agreement innovations. The chapter is available on GLG's website [here](#).
