**NOTIFICATION OF DOCKET ENTRY**

This docket entry was made by the Clerk on Thursday, May 7, 2020:

MINUTE entry before the Honorable Matthew F. Kennelly: At the Court's instance, the trial date of 6/1/2020 and the final pretrial conference date of 5/19/2020 are vacated. The Court advises that upon resumption of regular court proceedings in this district, which may happen in early June (though that is uncertain), the district will be prioritizing criminal jury trials involving defendants in custody, and then (likely) criminal trials involving defendants not in custody that had to be moved due to the suspension of court proceedings, with civil jury trials getting a lower priority in the near term. If the Court had to predict, the trial date likely will have to be reset to late summer at the very earliest. The Court advises that there may be significantly greater leeway regarding an earlier trial date were the parties to agree to a bench trial, though the Court understands that each side has a right to a jury trial and is perfectly fine with either a jury trial or a bench trial. The Court intends, however, to rule on all motions in limine well in advance of trial (contrary to its usual practice), figuring that such rulings will assist the parties in determining how to proceed and will also affect the length of the trial once it is held. With these considerations in mind, the Court resets the deadline for responses to motions in limine to 5/20/2020 (with aggregate page limits of 25 pages per side), and will allow each side to file a single combined reply by 5/27/2020 not to exceed 10 pages. In the event the Court requires argument, that is set for 6/24/2020 at 1:30 PM and may be conducted by video conference (to be determined). (mk)
